

2-STAR SKG - TILT-AND-TURN SYSTEMS

2-STAR SKG - TILT-AND-TURN SYSTEMS

Functions

Giesse offers for Tilt-and-Turn windows with a single and double sash, a complete burglar-proof closing system with SKG** certification issued by IKOB SKG (Netherlands).

The use of premium materials (such as microcast steel) is essential for strengthening the components and connection devices and ensures the closing system is designed to withstand attempted burglaries and direct attacks.

Technical Features

The SKG** system consists of:

- Mechanism - SKG** Cremone with key
- SKG** Tilt-and-Turn mechanism
- Arms and Tilt-and-Turn hinges - CHIC or FUTURA
- SKG** Burglar-proof fastening mechanism components

The combination of these components in line with variations in the sash dimensions ensures that the Giesse closing system is strong enough to be defined as burglar-proof, with RC2 classification in accordance with EN1627. System certification in accordance with EN1627, however, corresponds to the whole casement: hardware, profile, glass, wall fixings, etc.

The rods used with the SKG certified closing system must be made using Aluminium.

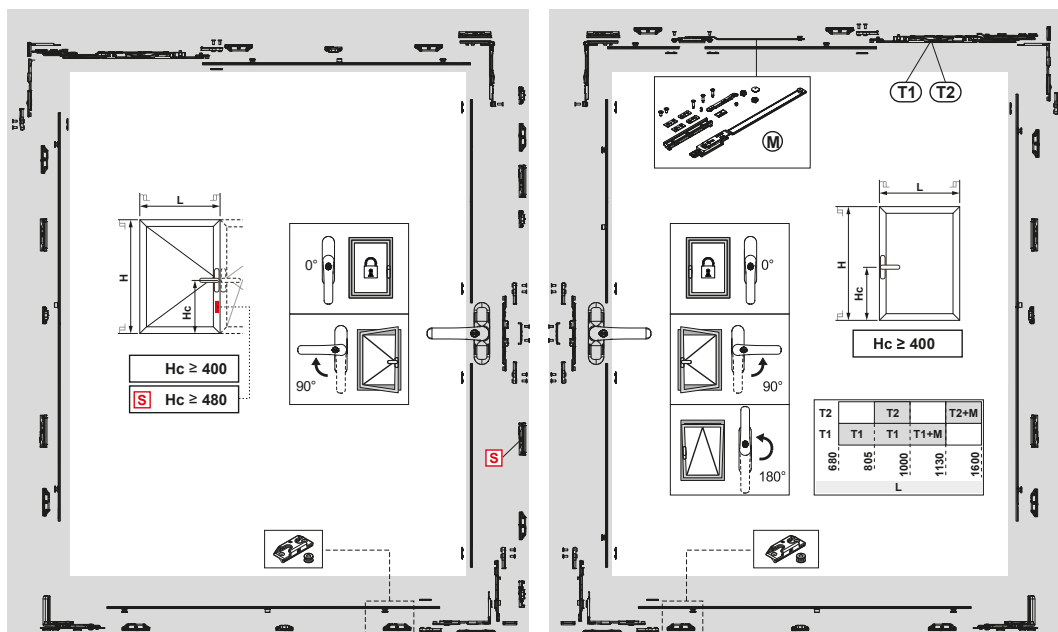

Single CHIC tilt-and-turn window - Configuration with 1000x1500 mm sash (LxH)

Quantity	Item code	Description
1	0108501 - 0119102 - 00960	Cremone
1	04007	Tilt-and-Turn window kit
8	04000	Burglar-proof fastening mechanism
1	043561 - 043562	CHIC - Tilt-and-Turn window kit, T2 arm (RH or LH)

Single FUTURA tilt-and-turn window - Configuration with 1000x1500 mm sash (LxH)

Quantity	Item code	Description
1	0108501 - 0119102 - 00960	Cremone
1	04007	Tilt-and-Turn window kit
8	04000	Burglar-proof fastening mechanism
1	04285	T2 arm 130
1	04711	Tilt-and-Turn window hinge

Double CHIC tilt-and-turn window - Configuration with 1000x1500 mm sash (LxH)

Quantity	Item code	Description
2	0108501 or 0119102 or 00960	Cremone
2	04007	Tilt-and-Turn window kit
14	04000	Burglar-proof fastening mechanism
2	043561 or 043562	CHIC - Tilt-and-Turn window kit, T2 arm (RH or LH)

Double FUTURA tilt-and-turn window - Configuration with 1000x1500 mm sash (LxH)

Quantity	Item code	Description
2	0108501 or 0119102 or 00960	Cremone
2	04007	Tilt-and-Turn window kit
14	04000	Burglar-proof fastening mechanism
2	04285	T2 arm 130
2	04711	Tilt-and-Turn window hinge

SKG - CREMONES

Functions

Reversible cremone with key lockable handle, with rotation through 90° and 180° and opening/closing positioning notch.

Technical Features

SKG*** certified, the cylinder makes it possible to lock the handle at 0° with a rotation and tear breaking strength greater than 100 Nm.

The cylinders of the FIRST KEY cremones have homogeneous coding, on request it is in any case possible to fulfill specific job orders with customized coding.

Materials

Handle in die-cast aluminium

Die-cast Zamak case, gears, racks and sliding parts

Nickel-plated brass cylinder

Internal sheath and Hostaform plate

Spring, screws and fixing plate in stainless steel

Parts

1 fixing plate

2 HSHC screws M5x14

2-STAR SKG - BURGLAR-PROOF FASTENING MECHANISM

Functions

Specially designed device to increase resistance of the tilt-and-turn window to break-in attempts, making intrusion through the window more difficult.

Technical Features

Article composed of two elements: the striker to be applied to the frame and the mushroom pawl to be applied to the rod.

The striker is reversible and is secured to the frame by means of the pre-assembled grub screw and two self-threading screws that ensure precise, quick fixing to the frame.

The pawl is applied to the rod of the series by simply making a hole $\varnothing 8$ mm; thanks to this solution, using the burglar-proof kit requires no changes to the cutting.

Materials

Striker in zamak with GS SILVER PLUS finish (over 500 hours of corrosion resistance)

Pawl and screws in stainless steel.

Item code	Description	Note	Base Raw	Anodised Elox	Painted	Trend/Gold Brass	Pieces per pack
04000	2-STAR SKG BURGLAR-PROOF FASTENING MECHANISM		X				20

SKG - ADDITIONAL ARM

Functions

Additional arm for combination with the type 1 or type 2 arm on casements more than 1000 mm wide, installed to distribute the sash opening force during bottom-hung opening. Specifically reinforced to achieve SKG certification.

Technical Features

The additional arm is fitted to the cross-beam on opposite side to the arm (drive side) on sashes more than 1000 mm wide to prevent excessive leverage, which might impair operation of the window, during bottom-hung opening.

The arm consists of a component for connection to the corner driver without fixing screws, a rod and a slider which is fixed to the frame using three self-tapping screws provided.

The integral rod fixing utilises specific screws and plates.

Materials

Stainless steel arm

Slider and fixing plug in GS SILVER PLUS zamak

Polyamide shim

Screws and grub screws in stainless steel

2-STAR SKG - TILT-AND-TURN SYSTEMS

SKG - CHIC 100 TILT-AND-TURN HINGES AND ARMS

Functions
Hinge kit (upper and lower), completely pre-assembled and ready to be installed on the profile.

Technical Features
They enable tilt-and-turn opening combined with the mechanisms.
Micro-ventilation and logica versions.
The arm is equipped with micro-ventilation as standard (adjustable).
Moving the fastening pawl takes the arm from conventional to logica.
The T2 arm is adjustable: the opening "A" goes from 178 mm (base) to 148 mm.

Materials
Corner support made of zamak
Connecting brackets and hinge plates made of zinc plated steel
Pins made of 304 grade stainless steel and aluminium bronze
Cams made of zinc plated steel
Connecting bracket and arm rod made of 304 grade stainless steel

2-STAR SKG - TILT-AND-TURN SYSTEMS

SKG - FUTURA 3D 130 HINGES AND ARMS

Functions

Futura 3D 130 tilt-and-turn hinge set (upper and lower) and arm.

Technical Features

Hinges: hinge set (upper and lower), completely pre-assembled and ready to be installed on the profile.

Arms: allow tilt-and-turn opening in conjunction with tilt-and-turn hinges and mechanisms.

Materials

Hinges:

- Body of hinges in extruded aluminium and brass
- Supports in zamak with GS Silver Plus finish (up to 500 h corrosion resistance)
- Pins, screws and grub screws in stainless steel

Arms:

- Body, fixing block and slider in zamak with GS Silver Plus finish (up to 500 h corrosion resistance)
- Rod, connecting bracket, grub screws and screws in stainless steel
- Stop disk in polyamide
