

## SchlegelGiesse, sealing and hardware solutions *all in one*

SchlegelGiesse came into being in 2016 as a result of the business integration between **Schlegel**, a leading English company operating on the sealing-systems market, and **Giesse**, an Italian company specialised in aluminium-window-and-door accessories. Scope of the merger is to become the “one-stop solution” in the field of windows, doors and curtain walls.

Technological innovation is at the basis of each single project and lies at the heart of every product. SchlegelGiesse works hard to create hi-tech solutions that can improve performance, reliability and assembly speed. With over 150 registered patents, SchlegelGiesse delivers an integrated offering with a vast range of choices which ensure the best possible solution for any project.

With 8 production plants and 19 branches around the world, SchlegelGiesse is a solid reality always looking for more opportunities for growth. In 2018 the Group further strengthened its offering by acquiring Reguitti, the Italian manufacturer of desing handles for windows and doors, and Jatec, the German brand of luxury handles.

*SchlegelGiesse is the international division of Tyman PLC, a group listed on the London Stock Exchange whose commercial network reaches clients in over 100 countries, with the goal to exceed customer expectations everywhere. Besides SchlegelGiesse, Tyman holding also includes Amesbury Truth, for the North American market, and ERA, which operates in the United Kingdom and Ireland.*

**Giesse S.p.A.**
