

ASIA PLUS 0-90

Strength and design
for outward opening
side-hung windows

ASIA PLUS 0-90

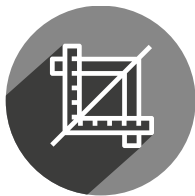

Giesse developed a new cremone, **Asia PLUS 0-90** designed for outward opening side-hung windows, with improved aesthetics and functionality.

This cremone features a more slender design, which meets the latest market trends for minimal products.

All Asia Plus-90 kits now have a galvanised steel rotor and sliders. This greatly improves component strength as well as the ability to seal larger sashes even better than before.

THE BENEFITS

Improved Design

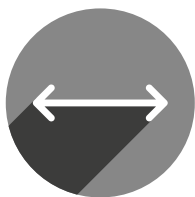

Shifting handle prevents it from catching on the frame

Galvanised steel components (rotor and sliders)

The rotating base of the cremone hides the fixing screws

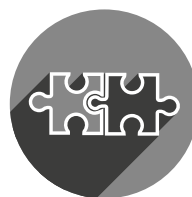

16 mm one-directional slider stroke

90° handle rotation

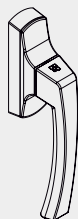

Fixing screws included

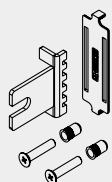

Compatible with Giesse transmission devices (like 04098 or 04099)

Cremone

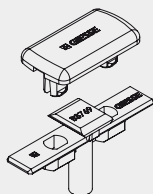

Code	Description	Drive rod length (mm)	Compatibility	Quantity per box
01401	Cremone Asia Plus 0-90	-	Outward opening kit + rod drive device	10

Outward opening kits
