

AV BRASS™

The new rustic brass
with antiviral and antibacterial properties

AV BRASS™

THE NEW RUSTIC BRASS

With antiviral and
antibacterial properties

Antiviral and
Antibacterial

Nickel Free

Corrosion
resistant

Recyclable and
Eco-friendly

Brass has always been the first choice material for the production of handles and accessories, also thanks to the great variety of finishes and surface treatments available on this material.

Today, brass is once again showing its bare natural properties: a material treated only with water and thus ecological and fully recyclable, resistant to salt corrosion and aggressive acids.

Our special AV Brass™ has been proven to have **antibacterial** properties according to ISO 22196 and **antiviral** properties according to ISO 21702 (tested against human NL63 Coronavirus and Influenza A Virus).

AV BRASS™

RUSTIC BRASS FINISH

Evolution of the **rustic brass AV BRASS™** finish over time

Furthermore, the surface reveals a fascinating side of the material's character: a surface that evolves and darkens thanks to the patina that forms over time and that gives the handles different shades and tones of vintage look.

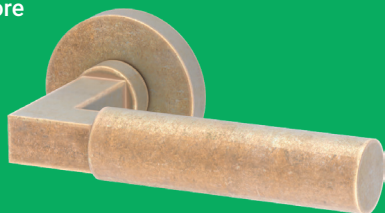

We recommend regular cleaning with a damp cloth to maintain the aesthetic and antibacterial/antiviral characteristics of the product.
