DESIGN E SEMPLICITÀ

MANIGLIE AD INCASSO
PER PORTE SCORREVOLI

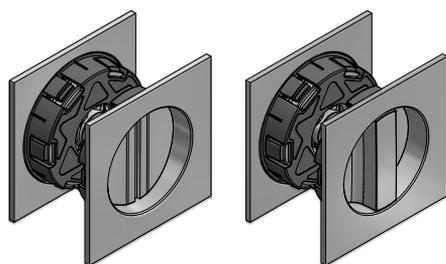

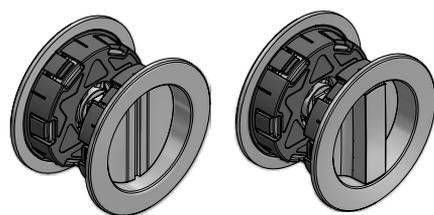

PRO

R60

MANIGLIE AD INCASSO DAL DESIGN MODERNO

Un design delicato caratterizza le nuove **maniglie ad incasso R60**, sintesi di una ricerca voluta a ridurre ai minimi termini tutto ciò che è superfluo, il risultato è un **design moderno e minimale** perfetto per ambienti contemporanei e di tendenza.

Estetica e design convivono armoniosamente con la semplicità manuale dell'utilizzo.

DESIGN MODERNO

SENZA GRANO E VITE IN VISTA

L'innovazione della nuova maniglia ad incasso R60 è nel nuovo **sistema di montaggio brevettato** il quale permette l'assenza nell'utilizzo del grano e della vite in vista nel lato dell'incontro taglio moneta. L'armonia delle linee e la delicatezza delle forme evitano sporgenze d'impatto soddisfacendo a pieno le richieste di arredamenti contemporanei.

Assenza del grano
e vite in vista

NEW

Maniglia ad incasso R60

Design moderno
**senza l'utilizzo del grano
e nessuna vite in vista**

OLD

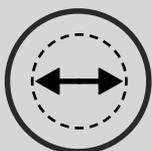

Maniglia ad incasso standard

Design standard
con l'utilizzo del grano
e con vite in vista

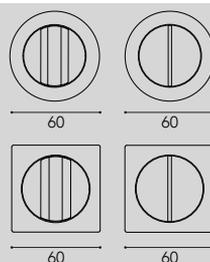

I VANTAGGI

I nuovi volumi amplificati rendono R60 funzionale e mai ingombrante, la semplicità e la velocità di montaggio, senza l'utilizzo di utensili, abbinate all'autoregolabilità dello spessore porta rendono R60 una delle maniglie top per le porte scorrevoli.

**DIMENSIONI
MAGGIORATE**

Placche incasso maggiorate
a \varnothing 60 e 60x60 mm

**MONTAGGIO
MANUALE VELOCE**

Montaggio senza l'utilizzo di
utensili, viti, grani e silicone

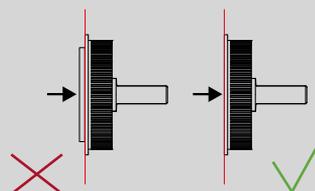

AUTOREGOLABILE

Autoregolabile per porte con
spessore da 35 a 52 mm

**NESSUNA
SPORGENZA**

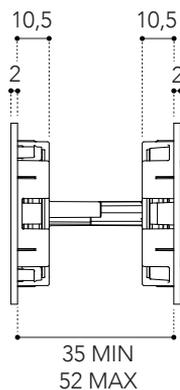

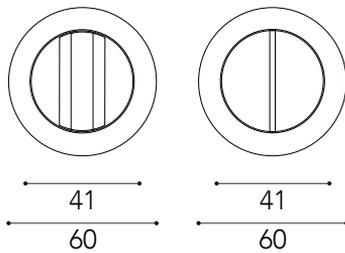

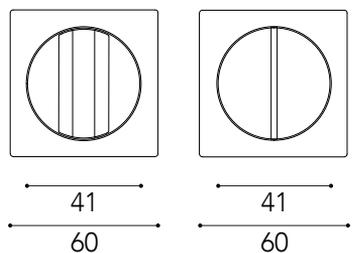

Nessuna sporgenza
del nottolino dalla
placca incasso

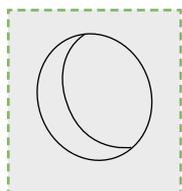

NUOVO SISTEMA DI MONTAGGIO BREVETTATO

DIMENSIONI R60

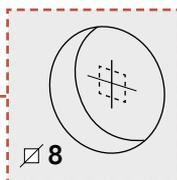

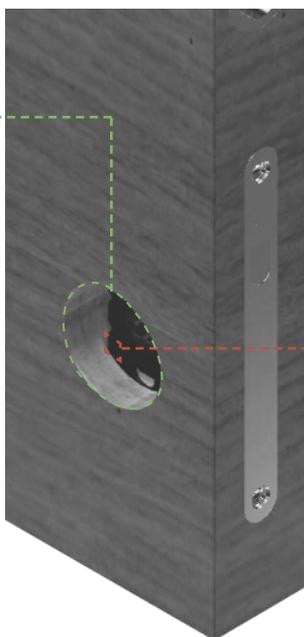

FORATURA PORTA PER MONTAGGIO R60CP - Q60PI

FORATURA PORTA
ø 48 mm

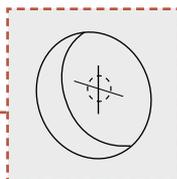

TOLLERANZA
+ 0,4 mm / - 0,1 mm

R60 CP

Il quadro della serratura deve essere posizionato in centro al foro da ø 48 mm

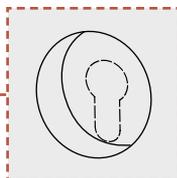

TOLLERANZA MASSIMA
± 0,3 mm

Q60 PI (chiave a spillo)

Il foro chiave della serratura deve essere posizionato in centro al foro da ø 48 mm

TOLLERANZA MASSIMA
± 0,3 mm

Q60 PI (foro Yale)

Scostamento foro ø 48 mm rispetto alla fresatura per serratura S1

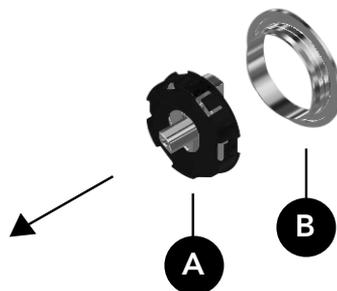

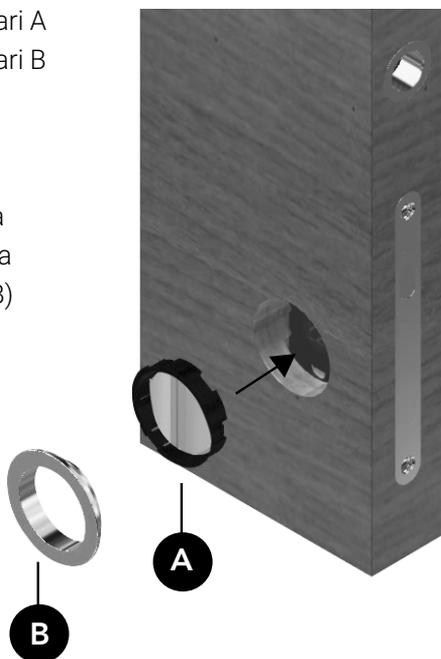

TOLLERANZA MASSIMA
± 0,3 mm

MONTAGGIO R60

1. Inserire particolari A
2. Inserire particolari B

ATTENZIONE

Non inserire nel foro della porta la nicchia completa (A assemblato a B) ma inserire prima A e poi B
