HIGHER SALES POTENTIAL

Stock and Advantages

NEW STOCK IN CUSTOMER WAREHOUSE

Optimised stock

The new method allows a more flexible stock management, thanks to the separation of the main component from the various accessories such as: escutcheons, mechanism and flush pull plates.

PRODUCT SALES POTENTIAL

Higher sales potential

With the same stock, the number of available designs can be increased to meet customer requirements.

Warehouse flexibility

Flexibility in the management of products in stock.

Faster delivery times

Flexibility makes it possible to meet customer requirements more quickly.
