SKH declaration

This product certificate has been issued by SKH on the basis of AD 0809 'Weather seals for façade elements' dd. 15-05-2014, including amendment sheet dd. 21-09-2022, in accordance with the SKH Regulations for Certification.

SKH declares that there is a legitimate confidence the weather seals manufactured by the producer continuously complies with the technical specification(s) laid down in this product certificate, provided that the weather seals have been marked with the KOMO[®]-mark depicted hereunder, in a way as indicated in this product certificate.

Users of this product certificate are advised to consult the SKH website whether this document is still valid.

For SKH

WEATHER SEALS FOR FAÇADE ELEMENTS

1 PRODUCT SPECIFICATIONS

The weather seals as mentioned in 1.1, comply with the requirements as mentioned in AD 0809

1.1 Technical specification

Seal	Classification code	Working range	Cross-cut
QL1026	1 2 6 2 7 6 1 : Category of use: (Table 2 Par. 4.1 and 4.2 AD0809) 2 : working range $> 1 \leq 2$ mm 6 : compression force $> 200 \leq 500$ Nm 2 : working temperature range $-10 \leq 55$ °C 7 : deflection recovery > 90 % 6 : recovery after ageing $> 80 \leq 90$ %	Wr: 2,0 mm

1.2

Marking

Products complying with the requirements of AD0809 must be marked with the KOMO[®]-mark.

The packaging shall be marked with:

- KOMO[®]-mark;
- Certificate no. **33131**;
- Classification code.

WEATHER SEALS FOR FAÇADE ELEMENTS

2 SUGGESTIONS FOR THE USER

2.1 On delivery of the weather seals check whether:

- the systems comply with the contract of sale;
- the identification and the manner of identification are correct;
- the products do not show any visible defects due to transport or similar causes.

If the products are rejected on the basis of the above, contact shall be made with: Schlegel Limited and if needed with certification body SKH.

2.2 Product certificate

The producer must make sure the buyer has a copy of the complete product certificate at his disposal.

2.3 Application and use

Transport, storage and application will be done in accordance with the guidelines of the manufacturer.

2.4 Control of validity

Consult the SKH-website <http://www.skh.nl> to verify whether the product certificate is still valid.
