The aesthetic range

Giesse offers four different aesthetic lines, equally extraordinary, to satisfy all application needs for aluminum windows and doors.

From elegant and modern to classic and timeless, Giesse handles allow you to infuse a coordinated look to all the openings of the building.

The **Away** cremones allow the removal of the handle for safety reasons

The ARIA aesthetic is exclusive to **Supra7** plate-free handles

High-performance finishes

Giesse offers the best finishes for modern surface treatments of aluminum profiles.

In addition to all the standard and special finishes, the exclusive Trend BE Nickelsat and Trend BE Cromosat high corrosion-resistance (EN1670 grade 5) finishes are also available.

The products are treated and coated using only thermosetting non-toxic powder paints, in compliance with environmental regulations.

Antiger™ treatment also available for unlimited antibacterial protection. Ideal for homes and all public places where hygiene is essential.
