

## CHIC 100 SASH HINGES

### Functions

Concealed hinges, designed for traditional and minimal profiles, with sash weight up to 100 kg.

Online data sheet

### Technical Features

This hinge is designed to be combined with reduced hardware dimensions in view, such as SUPRA 7.

The surface treatment SHIELD MAX 5 offers Giesse hardware a significant advantage, allowing it to achieve CLASS 5 (<480 h) corrosion resistance according to the UNI EN 1670 standard.

Furthermore, this treatment ensures exceptional resistance on Giesse's CHIC 100 casement and tilt-and-turn products, exceeding 1000 hours in salt spray testing, thus providing more than double the durability and protection against corrosion.

### Materials

Corner support made of zamak

Connecting brackets and hinge plates made of zinc plated steel

Pins made of 304 grade stainless steel and aluminium bronze

Cams made of zinc plated steel

## CHIC 100 SASH MECHANISM

### Functions

Giesse Cremona and window handles can be used to operate a CHIC 100 sash.

For space and design reasons, we recommend the use of the SUPRA 7 hammer, an innovative reversible mechanism system without washer, which can be used for moving window sashes with different types of opening, having mechanisms compatible with 7 mm square pins.

Online data sheet

### Technical Features

Supra 7 window handles can be combined with Giesse sash drives and mechanisms and have a rotor with a 7 mm square hole.

They are available in four styles: ARIA, ASIA, KORA and PRIMA.

Two movements are available:

- 0102001 for standard profiles (11.1 mm backset) two-way
- 00949 for minimal profiles (3.5 mm backset), one-way
- 0106101 for standard profiles (11.1 mm backset) one-way

### Materials

Handle in die-cast aluminium

Internal components made of GS SILVER PLUS

zamak, zinc plated steel and white polyamide

Zinc plated steel fixing screws, with Eslock treatment

## CHIC 100 SASH FASTENERS

### Functions

Depending on the fastening system (one-way or two-way), different fastening components such as terminals or pawls and their corresponding strikers are available.

## SECONDARY SASH HINGE SET FOR CHIC 3D 100

### Functions

Set of hinges (top and bottom) for side-hung or secondary sash with tilt-and-turn CHIC 3D 100.

### Technical Features

Sash opening to 180°.

Maximum load capacity 100 kg.

Assembly is simple, fast and easy using the special pre-assembled cams.

When there is an additional fastening mechanism, you need to use the CHIC fastening element.

Both hinges are adjustable (3D).

If opening is obstructed, you need to use the FRIZ limitation arm.

The surface treatment SHIELD MAX 5 offers Giesse hardware a significant advantage, allowing it to achieve CLASS 5 (<480 h) corrosion resistance according to the UNI EN 1670 standard.

Furthermore, this treatment ensures exceptional resistance on Giesse's CHIC 100 casement and tilt-and-turn products, exceeding 1000 hours in salt spray testing, thus providing more than double the durability and protection against corrosion.

### Materials
